

AGENDA

CITY OF TAYLOR, TEXAS
CITY COUNCIL MEETING
CITY HALL, COUNCIL CHAMBERS, 400 PORTER STREET

JANUARY 26, 2012, 6:00 P.M.

CALL TO ORDER AND DECLARE A QUORUM

INVOCATION

PLEDGE OF ALLEGIANCE

CITIZENS COMMUNICATION

(The City Council welcomes public comments on items not listed on the agenda. However, the Council cannot respond until the item is posted on a future meeting agenda. Registration forms are available at the sign in table.)

CONSENT AGENDA

(The Consent Agenda includes non-controversial and routine items that the Council may act on with one single vote. The Mayor or any Council member may pull any item from the Consent Agenda to discuss and act upon individually on the Regular Agenda.)

1. Minutes for January 12, 2012. (Susan Brock)
2. Approve Ordinance 2011-23 amending the Zoning Ordinance to add "Food Bank or Pantry" to definitions, delete definitions for "Institution for Religious, Charitable, or Philanthropic Nature" and "Non Profit Activities by a Church," and change definitions and districts for auto repair, and amend the Future Land Use Map relating to the Downtown Neighborhood (DN) District.
3. Accept Semi-Annual Impact Fee Report from the Taylor Impact Fee Advisory Committee for period of July 1-December 31, 2011. (John Elsdén)
4. Concur with preliminary financials for December, 2012. (Rosemarie Dennis)

PUBLIC HEARING

5. Conduct Public Hearing regarding an application for a rezone from B-1 Local Business to B-2 General Business for property located at the northwest corner of TH Johnson Drive and North Main Street, also described as 7.41 acres situated in the William J. Baker Survey AW-0065, City of Taylor, Williamson County, Texas. (John Elsdén)

ORDINANCES

6. Consider introducing Ordinance 2012-05 regarding an application for a rezone from B-1 Local Business to B-2 General Business for property located at the northwest corner of TH Johnson Drive and North Main Street, also described as 7.41 acres situated in the William J. Baker Survey AW-0065, City of Taylor, Williamson County, Texas. (John Elsdén)

REGULAR AGENDA; REVIEW/DISCUSS AND CONSIDER ACTION

7. Consider board appointments and reappointments for city boards and commissions. (Susan Brock)
8. Consider approving Resolution R12-02 calling an election on May 12, 2012 for the purpose of electing one Council Member from District 2 and one Council Member from District 3. (Susan Brock)
Considerando la aprobación de la Resolución R12-02 convocando a elecciones el 12 de Mayo de 2012, con el propósito de elegir un Miembro del Ayuntamiento Municipal del Distrito 2 y un Miembro del Ayuntamiento Municipal del Distrito 3. (Susan Brock).
9. Receive and discuss information regarding city street inventory. (Jim Dunaway; Casey Sledge)

ADJOURN

The Council may vote and/or act upon each of the items listed in this Agenda. The Council reserves the right to retire into executive session concerning any of the items listed on this Agenda, whenever it is considered necessary and legally justified under the Open Meetings Act. I certify that the notice of meeting was posted in the Taylor City Hall Lobby before 6:00 pm on January 23, 2012 and remained posted for at least 72 hours continuously before the scheduled time of said meeting. I further certify that the following news media was notified of this meeting: Taylor Daily Press.

In compliance with the ADA the City Hall and Council Chambers are wheelchair accessible. Reasonable accommodations will be provided for persons attending city council meetings in need of special assistance. Please contact Susan Brock, City Clerk, at least 24 hours prior to the meeting for special assistance.

Agenda Item Transmittal***

Agenda Item #: 1
Agenda Title: Minutes for January 12, 2012.
Council Action: Motion to approve or approve with corrections
Initiating Department: City Management/City Clerk
Staff Contact: Susan Brock, City Clerk

1. INTRODUCTION/PURPOSE

Pursuant to the Open Meetings Law, Chapter 551, Local Government Code and in accordance with the authority contained in Section 551.021 and the City Charter, the “Minutes” of each City Council must be recorded, compiled and approved by the City Council in subsequent meetings. The purpose of this item is to conform to these legal requirements.

2. DESCRIPTION/ JUSTIFICATION

N/A

3. FINANCIAL/BUDGET

N/A

4. RECOMMENDATION

Approve as submitted or amend with changes noted.

5. REFERENCE FILES

1a. [Minutes, January 12](#)

The City Council of the City of Taylor met on January 12, 2012, at City Hall, 400 Porter St., Taylor, Texas. Noting the absence of Council Member Ancira, Mayor Hill declared a quorum and called the meeting to order at 6:00 p.m. with the following present:

Mayor Pro Tem, Chris Gonzales
Council Member John McDonald
Council Member Chris Osborn

City Manager, Jim Dunaway
Assistant City Manager, Jeff Straub
City Attorney, Ted Hejl
City Clerk, Susan Brock

INVOCATION

Reverend Tony Watson led the group in prayer.

PLEDGE OF ALLEGIANCE

CITIZENS COMMUNICATION

The following citizens came forward: Debbie Cepak addressed the Council regarding a residential wastewater issue and drainage problems near Holly Springs. Joe Naizer commented on city staff involvement at a recent board meeting of the Taylor Independent School District.

CONSENT AGENDA

1. MINUTES DECEMBER 8 AND DECEMBER 13, 2011.
2. APPROVE ORDINANCE 2011-33 TO REZONE 404 CARLOS PARKER G. PARKER BLVD. NW.

ORDINANCE 2011-33

AN ORDINANCE CHANGING THE ZONING OF PROPERTY BEING 0.924 ACRES OF LAND MORE OR LESS IN THE WILLIAM J. BAKER SURVEY, ABSTRACT, GENERALLY LOCATED AT 404 CARLOS G. PARKER BOULEVARD TAYLOR WILLIAMSON COUNTY, TEXAS, LEGALLY DESCRIBED IN THIS ORDINANCE FROM SINGLE FAMILY R-1, TO LOCAL BUSINESS B-1; AMENDING THE OFFICIAL ZONING MAP OF THE CITY OF TAYLOR, TEXAS, TO SHOW THE ZONING CHANGE ADOPTED HEREIN; PROVIDING A SAVINGS CLAUSE.

3. APPROVE ORDINANCE 2011-34 AMENDING THE SIGN ORDINANCE REGARDING FREESTANDING OR LOW PROFILE SIGNS.

ORDINANCE 2011-34

AN ORDINANCE OF THE CITY OF TAYLOR, TEXAS, AMENDING ORDINANCE NO. 2008-20 TO DELETE LANGUAGE IN CONFLICT WITH SECTION 3.10.2 WHICH ALLOWS A FREESTANDING SIGN FOR EVERY 150 FEET OF FRONTAGE ALONG THE RIGHT OF WAY OF A PARCEL; PROVIDING A SEVERABILITY CLAUSE.

4. CONCUR WITH PRELIMINARY FINANCIALS FOR NOVEMBER, 2011.

Mayor Pro Tem Gonzales moved to approve the consent agenda as presented and Council Member McDonald seconded the motion. VOTE: Four voted AYE.
Motion passed.

PRESENTATIONS AND RECOGNITIONS

5. PROCLAMATION. MARTIN LUTHER KING, JR. DAY, JANUARY 16, 2012.

Mayor Hill recognized Monday, January 16, 2012 as Martin Luther King Jr. Day and Reverend Tony Watson accepted the proclamation.

6. RECOGNIZE FINANCE DEPARTMENT FOR RECEIVING A CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING (CAFR) AWARD.

Mr. Dunaway asked Mayor Hill to assist in recognizing Ms. Rosemarie Dennis and staff for their recent achievement from the Government Finance Officers Association of the United States and Canada. This marked the third time they have received this award.

7. RECOGNIZE MAIN STREET PROGRAM FOR RECEIVING A NATIONAL MAIN STREET COMMUNITY AWARD.

Mr. Dunaway requested the Mayor present the award to Ms. Deby Lannen and Christina David, Main Street Board.

PUBLIC HEARINGS

8. CONDUCT A PUBLIC HEARING TO REZONE PROPERTY LOCATED AT 2003 W. 2ND STREET, 1.698 ACRES IN THE H. G. JOHNSON SURVEY, ABSTRACT 348, FROM B-1, LOCAL BUSINESS TO M-1, LIGHT INDUSTRIAL.

Mr. John Elsdon presented a request to rezone property from local business to light industrial in order to allow the property owner to operate a food truck in the parking lot of his property. A question was raised regarding the need for this truck and staff responded that the main facility itself was never approved for a restaurant.

Mayor Hill opened the public hearing. Mr. A. P. Patschke spoke against this request on behalf of property owners immediately adjacent to the property. Comments also included the need to reexamine zoning and the future land use plan for the entryways to the city. Hearing no further comments, the hearing was closed.

ORDINANCES

9. CONSIDER INTRODUCING ORDINANCE 2012-02 TO REZONE PROPERTY LOCATED AT 2003 W. 2ND STREET, 1.698 ACRES IN THE

H. G. JOHNSON SURVEY, ABSTRACT 348, FROM B-1, LOCAL BUSINESS TO M-1 LIGHT INDUSTRIAL.

Mr. Elsdon presented the Ordinance corresponding to the previous agenda item discussed during the Public Hearing. Due to the comments made during the public hearing, Council opted not to move forward with this zoning request and did not introduce the ordinance.

ORDINANCE NO. 2012-02

AN ORDINANCE REZONING PROPERTY LOCATED AT 2003 W SECOND STREET FROM B-1, LOCAL BUSINESS, TO M-1, LIGHT INDUSTRIAL; AND PROVIDING A SAVINGS CLAUSE

10. CONSIDER INTRODUCING ORDINANCE 2011-23 AMENDING THE ZONING ORDINANCE TO ADD 'FOOD BANK OR PANTRY' DEFINITIONS, DELETE DEFINITIONS FOR 'INSTITUTION FOR RELIGIOUS, CHARITABLE, OR PHILANTHROPIC NATURE' AND 'NON PROFIT ACTIVITIES BY A CHURCH' AND TO CHANGE DEFINITIONS AND DISTRICTS ALLOWED FOR AUTO REPAIR, AND AMEND THE FUTURE LAND USE MAP.

Mr. Elsdon presented a request to introduce an ordinance that would amend the current zoning ordinance and provide clarification to specific definitions. After some discussion, Mayor Hill asked Mr. Hejl to introduce the ordinance as presented.

ORDINANCE 2011-23

AN ORDINANCE AMENDING ZONING ORDINANCE NO. 2001-17 ADOPTED BY THE CITY OF TAYLOR, TEXAS ON APRIL 24, 2001 AS HERETOFORE AMENDED, BY ADDING FOOD BANK OR PANTRY TO TABLE 3, PERMITTED USES; MODIFYING TABLE 3 FOR MAJOR AUTO REPAIR, MINOR AUTO REPAIR, AND AUTOMOBILE ACCESSORY INSTALLATION (MINOR); ADDING FOOD BANK OR PANTRY TO SECTION 11, DEFINITIONS; MODIFYING CHAPTER 11, DEFINITIONS, FOR AUTOMOBILE ACCESSORY INSTALLATION (MINOR), AUTOMOBILE REPAIR, MINOR, AND AUTOMOBILE REPAIR, MAJOR; DELETING NON-PROFIT ACTIVITIES BY A CHURCH AND INSTITUTION FOR RELIGIOUS, CHARITABLE OR PHILANTHROPIC NATURE FROM TABLE 3; MODIFYING THE FUTURE LAND USE MAP; AND PROVIDE A SAVINGS CLAUSE.

REGULAR AGENDA – REVIEW/DISCUSS & CONSIDER/ACTION:

11. CONSIDER APPROVING RESOLUTION R12-01 SUPPORTING THE SUBMISSION OF A GRANT APPLICATION TO THE MEADOWS FOUNDATION BY THE YMCA OF GREATER WILLIAMSON COUNTY FOR FINANCIAL ASSISTANCE FOR A PROPOSED COMMUNITY RECREATION CENTER.

Mr. Straub presented a request to approve a resolution in support of a grant application to be submitted by the YMCA of Greater Williamson County. The application is to be submitted to the Meadows Foundation to request additional

funding for the YMCA facility in Taylor.

Council Member McDonald moved to approve Resolution R12-01 and Council Member Osborn seconded the motion. VOTE: Three voted AYE. One vote NO (Mayor Pro Tem Gonzales). Motion passed.

12. CONSIDER REQUEST FROM IESI TO EXTEND SOLID WASTE COLLECTION SERVICES AGREEMENT AND TO CONSIDER A FEE INCREASE FOR THESE SERVICES.

Mr. Danny Thomas, Director of Public Works, presented a request to consider a rate increase from IESI for garbage services. The request is for 3.9% to help with increased expenses for the delivery of these services. Council Member Osborn made a request to delay the request for an increase until the IESI staff can bring back a proposal to include recycling price options. Staff agreed to bring back a proposal at the February 9th council meeting and no further action was taken.

13. CONSIDER INTERLOCAL AGREEMENT WITH CITY OF BEDFORD REGARDING A COOPERATIVE PURCHASING PROGRAM FOR FIRE DEPARTMENT UNIFORMS.

On behalf of Chief Pat Ekiss, Taylor Fire Department, Mr. Dunaway presented a request to approve an interlocal agreement with the City of Bedford for the purchase of department uniforms. The agreement would allow the city to take advantage of lower prices when replacing uniforms as part of a purchasing cooperative.

Mayor Pro Tem Gonzales moved to approve the Interlocal Agreement with the City of Bedford and Council Member Osborn seconded the motion. VOTE: Four voted AYE. Motion passed.

14. CONSIDER ENTERING INTO A PROFESSIONAL SERVICES CONTRACT WITH SLEDGE ENGINEERING, LLC FOR PROJECT MANAGEMENT OF THE COMMUNITY RECREATION CENTER CONSTRUCTION PROJECT.

Mr. Straub presented a request to council to consider approving a professional services contract with Sledge Engineering for project management of the community recreation center. His services also include oversight during the design and construction of the facility.

Council Member Osborn moved to approve the professional services contract as presented and Mayor Pro Tem Gonzales seconded the motion. VOTE: Four voted AYE. Motion passed.

15. CONSIDER ENTERING INTO A PROFESSIONAL SERVICES CONTRACT WITH KAH ARCHITECTS FOR DESIGN AND CONSTRUCTION OVERSIGHT OF THE COMMUNITY RECREATION CENTER PROJECT.

Mr. Straub presented a request to enter into a professional services contract for design and construction of the community recreation center. Mr. Casey Sledge stated that the design plan will include a pool and also a gymnasium in an effort to have as complete a design as possible if funding becomes available to expand the facility. Staff recommended KAH Architects based on their qualifications and experience with similar facility design. Mr. Keith Hickman responded to questions related to the

proposed timeline.

With no further discussion Council Member McDonald moved to approve the professional services contract with KAH Architects as presented and Council Member Osborn seconded the motion. VOTE: Four voted AYE. Motion passed.

EXECUTIVE SESSION

16. EXECUTIVE SESSION. The Taylor City Council will conduct a closed executive meeting pursuant to the provisions of the Open Meetings Law, Chapter 551, Government Code, and the authority contained in Section 551.087 to discuss or deliberate regarding commercial and/or financial information on a business prospect that the City of Taylor, Texas, seeks to have locate, stay, or expand in or near the City of Taylor, Texas, and with which the City of Taylor, Texas, is conducting economic development negotiations and/or deliberate the offer of financial or other incentives to the business prospect.

- Project Lone Star

Mayor Hill and council members retired to closed session at 7:40 pm.

17. CONSIDER ACTION FROM EXECUTIVE SESSION.

Mayor Hill resumed the open meeting at 8:08 p.m. and stated that there was no action taken on any issue during Executive Session.

ADJOURN

With no further business; Mayor Hill adjourned the meeting at 8:08 p.m.

Don Hill, Mayor

Susan Brock, City Clerk

City Council Meeting January 26, 2012 Agenda Item Transmittal

Agenda Item #: 2

Agenda Title: Approve Ordinance 2011-23 amending the Zoning Ordinance to add “Food Bank or Pantry” to definitions, delete definitions for “Institution for Religious, Charitable, or Philanthropic Nature” and “Non Profit Activities by a Church,” and change definitions and districts allowed for auto repair, and amend the Future Land Use Map relating to the Downtown Neighborhood (DN) District.

Council Action: Approve by consent Ordinance 2011-23

Initiating Department: Planning and Development

Staff Contact: **John Elsdén, AICP**
City Planner

1. INTRODUCTION/PURPOSE

This item was introduced at the January 12, 2012 council meeting. It is now scheduled on the consent agenda for Council’s final consideration.

2. DESCRIPTION/ JUSTIFICATION

Food Bank or Pantry Definition Added

This use is proposed for addition to Table 3, with definition shown below. Please note the recommended districts for this use on Table 3 below.

Food Bank or Pantry – A non-profit agency where food and / or grocery products are collected and distributed to those in need.

Future Land Use Plan – Change of Location of Downtown Neighborhood Designation, and addition of Specific Use Permit to allow Major Auto Repair in the B-1, Local Business District

A change in the location of the Downtown Neighborhood designation on the Future Land Use Plan will move the designation approximately one block to the north, to run from mid-block north of West Second Street to mid-block north of West Fourth Street (see two maps below showing the Current Future Land Use Map and the recommended relocation of the Downtown Neighborhood (DN) to the north). A general commercial use is left on the plan along the north side of W 2nd. Much of this area now has B1, Local Business zoning.

Automotive repair: The proposed amendment would allow “major automotive repair” with a Specific Use Permit (SUP) within B-1, Local Business District, which is current not allowed. The amendment also proposes to allow “minor auto accessory installation” and “minor auto

repair” in this district providing that there are no outdoor repairs or storage (see table below). This change should address the need for future rezoning requests from B-1 to B-2, especially along West Second Street, since there seems to be a trend in this direction recently.

The following is recommended to be added to the definition for “Auto Accessory Installation (Minor)” and “Automobile Repair, Minor” within the B-1 District:

No outside storage of vehicles or tools and no work on vehicles will be allowed within the B-1 Zoning District.

Zoning Ordinance – Deletion of Uses from Table 3, Permitted Uses: Institution for Religious, Charitable or Philanthropic Nature and Non-Profit Activities by a Church

During the past two years we have had applications related to “Institution for Religious, Charitable or Philanthropic Nature” and “Non-Profit Activities by a Church” as listed on Table 3 of the Zoning Ordinance. Since these two uses have no definition within the Ordinance, an individual could apply for any use that they feel fits into one of these two categories, thus these two uses have been recommended for deletion. The particular uses that are typically performed by churches or non-profit organizations are already covered by the ordinance.

ORDINANCE NO. 2011-23

AN ORDINANCE AMENDING ZONING ORDINANCE NO. 2001-17 ADOPTED BY THE CITY OF TAYLOR, TEXAS ON APRIL 24, 2001 AS HERETOFORE AMENDED, BY ADDING FOOD BANK OR PANTRY TO TABLE 3, PERMITTED USES; MODIFYING TABLE 3 FOR MAJOR AUTO REPAIR, MINOR AUTO REPAIR, AND AUTOMOBILE ACCESSORY INSTALLATION (MINOR); ADDING FOOD BANK OR PANTRY TO SECTION 11, DEFINITIONS; MODIFYING CHAPTER 11, DEFINITIONS, FOR AUTOMOBILE ACCESSORY INSTALLATION (MINOR), AUTOMOBILE REPAIR, MINOR, AND AUTOMOBILE REPAIR, MAJOR; DELETING NON-PROFIT ACTIVITIES BY A CHURCH AND INSTITUTION FOR RELIGIOUS, CHARITABLE OR PHILANTHROPIC NATURE FROM TABLE 3; MODIFYING THE FUTURE LAND USE MAP; AND PROVIDE A SAVINGS CLAUSE.

WHEREAS, the City of Taylor, Texas desires to amend the Zoning Ordinance to add definitions for Food Pantry; Modify Section 11 and Table 3 for Automobile Accessory Installation (Minor), Automobile Repair, Minor, and Automobile Repair, Major and change definitions; delete Non-Profit Activities by a Church and Institution for Religious, Charitable or Philanthropic Nature; and Modify the Future Land Use Map; and

WHEREAS, the Planning and Zoning Commission conducted a Public Hearing for these change on September 13, 2011 and recommends approval of these changes; and

WHEREAS, the City of Taylor, Texas conducted a public hearing regarding the zoning change and no opposition was expressed regarding the zoning change; and

WHEREAS, the City deems it is in the best interest that the amendment in the zoning ordinance be allowed.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF TAYLOR, TEXAS:

SECTION 1. All of the facts recited in the preamble to this Ordinance are hereby found by the City Council to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied herein verbatim

SECTION 2. Table 3, Permitted Uses, is amended to read as follows:

Table 3 - Permitted Uses

TABLE 3 – PERMITTED USES	Residential Districts								Misc. Districts			Nonresidential Districts							
Permitted uses	R-A	R-1	R-2	R-3	MH	D	MF-1	MF-2	DN	I	P	B-1	B-2	B-3	BP-1	BP-2	M-1	M-2

SECTION 3.

Section 11, Definitions, is amended as follows:

Food Bank or Pantry - A non-profit agency where food and / or grocery products are collected and distributed to those in need.

Automobile Accessory Installation (Minor) - Minor installation of minor automobile accessories such as car alarms, radio and stereo equipment, window tinting, pin striping, cellular telephones and similar accessories. No outside storage of vehicles or tools and no work on vehicles will be allowed within the B-1 Zoning District.

Automobile Repair, Minor - Minor repair or replacement of parts, tires, tubes and batteries; diagnostic services; minor maintenance services such as grease, oil, spark plug and filter changing; tune-ups; emergency road service; replacement of starters, alternators, hoses and brake parts; automobile washing and polishing; performing state inspections and making minor repairs necessary to pass said inspection; normal servicing of air-conditioning systems; and other similar minor services for motor vehicles except heavy load vehicles, but not including any operation named under "Automobile Repair, Major;" or any other similar use. No outside storage of vehicles or tools and no work on vehicles will be allowed within the B-1 Zoning District.

SECTION 4.

The Taylor Future Land Use Map is amended as follows:

Future Land Use Showing "Downtown Neighborhood" MOVED NORTH

In accordance with Article VIII, Section 1, of the City Charter, Ordinance No. 2011-23 was introduced and a public hearing was held before the Taylor City Council on the 12TH day of January, 2012.

PASSED, APPROVED, and ADOPTED on the _____ day of _____, 2012.

City Council Meeting January 26, 2012 Agenda Item Transmittal

Agenda Item #: 3

Agenda Title: Accept the Semi-Annual Impact Fee Report from the Taylor Impact Fee Advisory Committee for July 1, 2011 to December 31, 2011.

Council Action: Approve report by consent

Initiating Department: Planning and Development

Staff Contact: John Elsdon, AICP
City Planner

1. INTRODUCTION/PURPOSE

The purpose of this item is for the City Council to consider the semi-annual impact fee update covering the period from July 1, 2011 to December 31, 2011.

2. DESCRIPTION/ JUSTIFICATION

On January 10, 2002, the City Council adopted Ordinance 2001-53, which enacted impact fees for domestic water and wastewater in the City of Taylor. The ordinance was effective on January 16, 2002, and revised on April 25, 2006, by Ordinance 2006-7 and on December 8, 2011 by Ordinance 2011-36. This Ordinance enables the City to collect impact fees for water and wastewater facilities.

On April 24, 2007, the City Council adopted Ordinance 2007-10 adopting roadway impact fees. This ordinance enables the City to collect impact fees for roadway projects within the City limits for all new development.

Section 5.8.20(1)(e) of the ordinance adopted in 2002 requires the Advisory Committee to “File semi-annual reports evaluating the progress of the City in achieving the capital improvements plans and identifying any problems in implementing the plans or administering the impact fees, and any perceived inequities in administration of the fee.” This brief report is intended to comply with that section’s requirements.

During the period from July 1, 2011 through December 31, 2011, \$6,596 of water impact fees, \$1,871.50 of wastewater impact fees, and \$4,323 of roadway impact fees were collected, for a total of \$12,790.50. Expenditures during this period used for the

impact fee update were \$18,051.01. The previous balance was \$438,411.84 as of June 30, 2011, and the new balance as of December 31, 2011 is \$433,151.33. Expenditures include a fee from last reporting period of \$3,400 which was omitted from last period's report. Exhibit A shows the detail of revenues and expenditures from July through December 2011.

Staff has not experienced any problems implementing the plans, administering the impact fees, nor have we discovered any inequities in the administration of the fees.

City Council Meeting January 26, 2012 Agenda Item Transmittal

Agenda Item #: 4
Agenda Title: Concur with Preliminary Financials for December, 2011.
Council Action to be taken: Approve by Motion
Initiating Department: Finance Department
Staff Contact: Rosemarie Dennis, Finance Director

1. INTRODUCTION/PURPOSE

Article 12, Section 12.3 of the City of Taylor's Charter states in part that the City Manager shall prepare and submit to the City Council a written monthly financial report that is in a form satisfactory with the City Council. The referenced report is intended to satisfy the Charter requirement.

2. MONTHLY FINANCIAL REPORT

The reporting period covered for is the month of December 2011. The following provides a brief overview on the preliminary status and/or activity of the major funds or groups of funds as of December 31, 2011:

General Fund

- ❖ Year-to-date revenues total \$3,022,070 down by \$339,038 or 10.1% from this same time last year. Revenues are at 28% to total budget. Below summaries the major General Fund revenue sources.
- ❖ Total sales tax collections for the month of December were \$221,224, an increase from this same time last year's collection by \$16,525 or 7.2%. The graph below reflects a history trend by year from 2002- 2011 for the months of December for the City's **total** sales tax allocation. The City portion of sales tax allocation is \$165,918 from the total collection which is an increase of \$12,394 or 8.1% from this same time of December 2010. TEDC receives the other 25% of sales tax..

- ❖ Current Property Tax Collections for year-to-date total \$1,740,675, a decrease from this same time last year's collection by \$107,807 or 5.8%. Property tax revenue is at 40% collection to total budget.
- ❖ Delinquent Property Tax with Penalty and Interest at \$35,447, an increase from this same time last year by \$13,692 or 6.3%.
- ❖ Franchise Tax collected year-to-date totaled \$285,231 compared to \$228,207 this same time last year which is an increase of \$57,024 or 24.9%. Electric reflects an increase due to a settlement received in the amount of \$39,736 from Oncor.

Franchise Tax Collected		
Franchise Tax	As of 12/31/10 FY2010-11	As of 12/31/11 FY2011-12
Cable	\$ 36,700	\$ 32,440
Electric	\$ 137,827	\$ 202,715
Gas	\$ 15,517	\$ 15,481
Mixed Bev.	\$ 723	\$ 533
Solid Waste	\$ 21,639	\$ 20,190
Telephone	\$ 15,576	\$ 13,782
Skills Games	\$ 225	\$ 90
Mobile Home	\$ - 0-	\$ -0-
	\$ 228,207	\$ 285,231
<i>Increase over previous yr.</i>		<i>+ \$57,024 or 24.9%</i>

- ❖ Permits and Licenses are at \$17,999 down by \$4,368 or 19.5% compared to this same time last year. This category is at 16% to total budget.
- ❖ Charges for services are at \$241,866 down by \$3,212 or 1.3% over last year. The largest increase is seen in park and league fees which are at year to date \$35,665 up by \$9,065 or 34.1% when compared to last year. The largest decrease is in refuse collection charges down \$14,229 or 7.8%.
- ❖ Municipal Court Fines and fees were \$75,262 up by \$3,728 or 5.2% from this same time last year.
- ❖ All other revenue totaled \$59,621; this is a decrease compared to last year by \$311,948 for which majority of that was due to the Ned Louis bequest.
- ❖ Expenditures are at \$2,341,618 which is 22% to total budget. This is a decrease from prior year by \$153,320 or 6.1%. All departments are operating within acceptable levels.
- ❖ The General Fund reflects revenues over expenditures of \$680,452. Over all, the General Fund for the first quarter is performing as expected.

Special Revenue Funds

- ❖ Tax Increment Fund- The only activity for this fund is interest income in the amount of \$82.
- ❖ Hotel/Motel Fund-Revenues- Total revenues are at \$15,400 which is 19% to total budget. This is a decrease of \$3,119 or 16.9% over the previous year. This decrease maybe attributed to two hotels that are delinquent in paying their December payment. No expenditure activity reported year-to-date. The Chamber will receive a payment in January.
- ❖ Texas Capital Fund- This is a pass through fund account. TCAT pays the City and the City in turn pays the State. First quarter payments totaled \$6,256.
- ❖ Main Street Fund- Revenues are at \$6,598 which is at 31% to total budget. Revenues were generated from the History of Taylor book sales, garage sales and the Christmas bizarre booth sales. Expenditures at \$6,635 which is 19% to total budget. The expense incurred was a city sponsored event and outside printing. Expenditures over revenues are at \$37.
- ❖ Cemetery Land Purchase- Performing as expected. Revenue at \$461 which is at 18% to total budget with no expense activity year-to-date.
- ❖ Municipal Court Security/Technology- Shows revenues over expenditures by \$4,512 with no reported expenditures year-to-date for this first quarter.. Revenues are at 21% to total budget. Performing as expected.
- ❖ Library Grant/Donations- Revenues are at \$462 which is 9% of total budget. Expenditures are reported at \$912, 18% to total budget. The expenditures were for book purchases. Expenditures exceed revenues by \$450.

Roadway Impact Fund

- ❖ Revenues year-to-date are at \$2,661 with no reported expenditures.

Municipal Drainage Utility Fund (MDUS)

- ❖ The MDUS Fund shows revenues at \$22,148 year-to-date with expenditures at \$15,047 and performing as expected for the first quarter of the fiscal year.

Utility Fund

- ❖ The Utility Fund operating revenues totaled \$1,222,087 year-to-date which is at 18% to total budgeted. When compared to last year at \$1,024,096 up by \$197,991 or 19.3%. Utilities (water, sewer, drainage and garbage) are billed in arrears and the accrual method is used at year end. Water sales for the first quarter are reported at \$619,753 which is an increase from the prior year by \$108,397 or 21.2%. Sewer came in at \$371,651 which is also an increase from prior year by \$24,289 or 7%.
- ❖ Total year-to-date expenditures are at \$1,406,964 which is at 21% to total budget. This is down when compared to this same time last year by \$32,520 or 2.3%. All departments are operating within normal levels.
- ❖ The Utility Fund shows expenditures over revenues by \$184,877. This fund is functioning slightly better than the previous year.

Utility Impact Fund

- ❖ Revenues year-to-date are at \$4,429, which is at 24% to total budget. Expenditures are at \$10,570; this expense for the impact study is a carry-over from the previous year.

Airport Fund

- ❖ The Airport Fund operating revenues year to date totaled \$106,865, which is down from this same time last year by \$9,955 or 8.5%. Hanger rental is at \$38,391 slightly up by \$729 from this same time last year. The fuel sales are reported at \$68,254 down by \$9,574 or 12.3% when compared to this same time last year. Revenues are at 22% to total budget for the first quarter.
- ❖ Operating expenditures totaled \$94,230 up by \$6,409 or 7.3% when compared to last year. Expenditure for fuel year-to-date came in at \$64,786 up by \$9,734 or 17.7% when compared to prior year. The Airport Fund shows revenues over expenditures in the amount of \$12,635 for the first quarter.

Cemetery Operating Fund

- ❖ The Cemetery Operating Fund shows expenditures over revenues by \$4,372. Revenues are \$23,121 which is 17% to total budget. Grave digging services came in at \$10,750, which down by \$8,550 or 44.3% from this same time last year. Revenues from cemetery lots are also down from the previous year by 6,927 or 51.7%. Expenditures totaled \$27,493 which is slightly up by \$1,329 or 5% from prior year. This fund was budgeted expenditures over revenues by \$24,844.

Fleet Services Operating Fund

- ❖ The Fleet Service Operating Fund reflects revenue over expenditures in the amount of \$4,198. This is an internal fund; different departments from various funds are charged a rental fee which is transferred to this fund to off- set the expenses for repairs and maintenance to the City's vehicles and equipment. This fund is operating at an acceptable level, 25% to total budget.

Fleet Replacement Fund

- ❖ The Fleet Replacement Fund is performing as anticipated and shows a deficit of \$47,122. No funds for revenue were allocated for this fiscal year by other funds, the purpose is to used and drawn down fund balance. Expenditures are for capital lease payments.

Investment Report

- ❖ The major increase that is reflected in the investment report is due to the collection of property tax. This is reported in the General Fund- Pooled Cash account that is with TexPool.

6. REFERENCE FILES

6a. [Ordinance 2012-05 with legal description](#)

ORDINANCE 2012-05

AN ORDINANCE CHANGING THE ZONING OF PROPERTY BEING 7.528 acres OF LAND MORE OR LESS IN THE THE WILLIAM J. BAKER SURVEY, ABSTRACT, GENERALLY LOCATED AT 3401 NORTH MAIN STREET TAYLOR WILLIAMSON COUNTY, TEXAS, LEGALLY DESCRIBED IN THIS ORDINANCE FROM LOCAL BUSINESS B-1, TO GENERAL BUSINESS B-2; AMENDING THE OFFICIAL ZONING MAP OF THE CITY OF TAYLOR, TEXAS, TO SHOW THE ZONING CHANGE ADOPTED HEREIN; PROVIDING A SAVINGS CLAUSE.

Whereas, the Taylor City Council conducted a public hearing on January 26, 2012, to consider the request made by Thomas Anderson Jones, Trustee, the owner of the Property legally described in Exhibit "A" attached hereto and incorporated by reference herein for all purposes ("Property"), to change the zoning for the Property from Local Business B-1 to General Business B-2; and

Whereas, the Planning and Zoning Commission, after conducting a public hearing on January 10, 2012, to consider the zoning request, recommended the zoning change to the City Council; and

Whereas, the City Council, after a public hearing, approves the request for the Property zoning change.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF TAYLOR, TEXAS, that:

SECTION 1. The facts and recitations contained in the preamble of this Ordinance are hereby declared to be true and correct and are incorporated by reference herein and made a part hereof, as if copied verbatim.

SECTION 2. The Property is changed from Local Business (B-1) to General Business (B-2).

SECTION 3. The Official Zoning map of the City of Taylor, Texas, is changed to show the Property zoning changed from Local Business (B-1) to General Business (B-2).

SECTION 4. All other terms and conditions contained in the official zoning map, except as amended herein, shall continue and remain in full force and effect.

SECTION 5. Should any section, paragraph, clause, phrase, or provision of this Ordinance be adjudged invalid or held unconstitutional, the same shall not affect the validity of this Ordinance as a whole or any part of the provisions thereof, other than the part so decided to be invalid or unconstitutional

SECTION 6. In accordance with Article VIII of the City Charter, Ordinance 2012-05 was introduced before the Taylor City Council on the 26th day of January, 2012.

PASSED, APPROVED, and ADOPTED on the _____ day of _____, 2012.

Don Hill, Mayor

ATTEST:

Susan Brock, City Clerk

APPROVED AS TO FORM:

Ted W. Hejl,
City Attorney

CERTIFICATE

THE STATE OF TEXAS

COUNTY OF WILLIAMSON

I, Susan Brock, being the current City Clerk of the City of Taylor, Texas, do hereby certify that the attached is a true and correct copy of Ordinance No. 2012-05, passed and approved by the City Council of the City of Taylor, Texas, on the _____ day of _____, 2012, and such Ordinance was duly introduced, passed, approved and adopted at meetings open to the public and notices of the meetings, giving the dates, places, and subject matter thereof, were posted as prescribed by Government Code Section 551.043.

Witness my hand and seal of office this _____ day of _____, 2012.

Susan Brock
City Clerk

May 6, 2005

These notes describe that certain tract of land situated in the W. J. BAKER SURVEY, ABSTRACT NO. 65, located in the City of Taylor, Texas, County of Williamson; subject tract being out of a called residue of "250.00 Acre" tract conveyed to Jane E. Jones in volume 358, page 112 of the Deed Records of Williamson County, Texas; being surveyed on the ground under the direct supervision of Bruce Lane Bryan, Registered Professional Land Surveyor No. 4249, subject tract being more fully described as follows:

BEGINNING at a $\frac{1}{2}$ " iron rod found at the southwest corner of a called "2.323 Acre" tract of land from Jane E. Jones to Trinity Lutheran Church in Warranty Deed dated 5/27/2003, recorded in Document No. 2003053563, Official Public Records of Williamson County (OPRWC), the same being the northwest corner of the herein described tract;

THENCE North $70^{\circ}53'15''$ East, with the subject tract a distance of 368.03 feet to a $\frac{1}{2}$ " iron rod found being the southeast corner of aforementioned "2.323 Acre", tract and the southwest corner of the Trinity Lutheran Church Subdivision, said subdivision recorded in Cabinet X, Slide 263, Plat Records of Williamson County (PRWC);

THENCE North $70^{\circ}53'15''$ East, with the south line of said Trinity Lutheran Subdivision, a distance of 633.20 feet to a $\frac{1}{2}$ " iron rod found along the western R.O.W. of State Highway 95, for the northeast corner of the herein described tract;

THENCE South $19^{\circ}05'19''$ East, with the western R.O.W. line of said State Highway 95, a distance of 326.94 feet, to a $\frac{1}{2}$ " iron rod set at the intersection of State Highway 95 and T.H. Johnson Drive, for the southeast corner of the herein described tract;

THENCE South $70^{\circ}48'16''$ West, along the northern R.O.W. line of said T.H. Johnson Drive (60' Right-of-Way) for a distance of 1000.45 feet to a $\frac{1}{2}$ " iron rod set for the southwest corner of the herein described tract, same being for the Southeast corner of Lot 79, Block "T", North Park Phase I, plat of which is recorded in Cabinet "X", Slide 182, of the Plat Records of Williamson County, Texas, (PRWC);

THENCE North $19^{\circ}13'31''$ West, along the east line of Lot 79, Block I, of North Park Phase I, recorded in Cabinet X, Slides 182-186, Plat Records of Williamson County (PRWC), for a distance of 328.39 feet to the **POINT OF BEGINNING** containing 327,940 sq. ft. or 7.528 Acres of land.

Bruce Lane Bryan Registered Professional Land Surveyor No. 4249

Exhibit A

City Council Meeting January 26, 2012 Agenda Item Transmittal

Agenda Item #: 7

Agenda Title: Consider Board appointments for the all boards and commissions.

Council Action to be taken: Approve as presented or make new appointments.

Initiating Department: City Administration

Staff Contact: Susan Brock, City Clerk
Karen Ellis, Library Director
Jean Johnson, Main Street Director
John Elsdon, City Planner

1. INTRODUCTION/PURPOSE

Council policy dictates that all board appointments expire in January of each year. The recommendations presented to you are from the Boards themselves.

2. DESCRIPTION/ JUSTIFICATION

All members up for reappointment have their attendance records included in your packets.

In an effort to recruit more applicants we have been running an ad in the Taylor Daily Press, and also in the Community Connections newsletter. Application information is available on the City's website and an application form is also included in all New Resident packets distributed at the Utility Billing Office.

3. RECOMMENDATION

Staff support for each of these committees or boards is here if you have any questions about their recommendations.

If you choose, you may make a motion to approve all appointments as presented at one time or make the appointments individually if you have changes to the recommendations provided.

7a. Airport Board :
Reappoint Darrell Reiley and Cheryl Frederick.

7b. Building and Standards Commission

Reappoint Roy Rogers and Cornelius Ray Henry. This Commission only meets as needed and has had no meetings; therefore there are no attendance records.

7c. CPIC recommends:

Reappoint Jennifer Ramirez, Jason Ford, Johnny Leschber, William Maxwell, and Jim Hejl for three year terms to expire in January 2015.

7d. Library Board recommends:

Reappoint Sharon Pick and Vicki Thornton and continue to seek applicants to replace the resignation of Teresa Gardner.

7e. Main Street Board recommends:

Reappoint Jan Konarik, Dana Moehnke, Janette Polach, Irene Michna. Appoint new members Bobby Seiferman, Ed Hile, and Stacy Stork.

7f. Moody Museum Board recommends:

Reappoint Cissie Pierce, Claire Maxwell, Gracie Yanez and Kelly Eddleman.

7g. Parks and Recreation Board recommends:

Reappoint John Inglis, Michael Brueckner and Gary Brock and appoint two new members Lucy Kerley and Jason Richter.

7h. There is no direct recommendation from the Planning and Zoning Commission itself but the staff support for this committee Mr. Elsdon is presenting a request to:

Reappoint Don McAlister and Thomas Rohlack and appoint Gummie Gonzales as a new member to fill the vacancy left by the resignation of Randolph Griffin, Sr.

7i. Taylor Economic Development Commission:

Clark Jackson and Christine Lopez have both expressed an interest in continuing to serve on this commission.

7j. Zoning Board of Adjustment recommends:

Reappoint Gayle Collins, Brunner Grau, and Jim Killough.

DESCRIPTION OF BOARDS AND COMMISSIONS

Airport Board meets the fourth Thursday each month and makes recommendations to the City Council about the operations of the municipal airport and helps ensure that the airport meets the needs of the City and the air industry.

Building & Standards Commission meets as needed to provide final interpretations concerning alleged violations of ordinances by upholding or overturning decisions made by the building officials. Members must be knowledgeable with the building, plumbing, mechanical, electrical and fire codes adopted by the city.

Civil Service Commission is a three member board appointed by the City Manager to adopt rules regarding hiring and promotional processes, the disciplinary process, maintenance of personnel files, and other subjects as defined by Civil Service Law.

Comprehensive Plan Implementation Committee has thirteen members appointed by Council to review the implementation status (Chapter 11) of the Taylor Comprehensive Plan twice a year.

Library Advisory Board meets the third Tuesday each month at 6pm and makes recommendations to the City Council regarding library operations and to help ensure that the Library meets the needs of the City.

Main Street Advisory Board meets the first Thursday each month to carry out an annual action plan for implementation of a downtown revitalization program focused on: design/historic preservation, promotion, organization/management, and economic restructuring/development.

Moody Museum Advisory Board meets one Monday evening a month and makes recommendations regarding the operation of the Moody Museum.

Parks and Recreation meets the third Tuesday at 6 pm to make recommendations to the City Council regarding sports and recreational programs, and facilities and helps ensure that they meet present and future needs.

Planning & Zoning Commission meets Tuesday evenings and makes decisions regarding platting or replatting of land into subdivisions within the corporate limits and within the extraterritorial jurisdiction of the City and makes recommendations to the City Council regarding the regulations of the use of land, location of buildings, and the locations of businesses, in respect to their environments.

Taylor Economic Development Corporation (TEDC) meets at 4:30 pm once a month (usually the third Wednesday) and promotes, assists, and enhances economic development activities for the City.

Taylor Housing Authority meets on Tuesday afternoon and establishes policy and reviews operations of subsidized housing in Taylor. One member must be a Housing Authority resident.

Zoning Board of Adjustments meets as needed to hear and decide special exceptions to the zoning ordinance and rules on appeals. This board is autonomous.

As an applicant for a city board or commission, your application is public information and will be available to the press and the public upon request. Incumbents whose terms expire are automatically considered for reappointment unless they indicate

List the Board or Commission you are applying for (A person may not be appointed by the City Council to serve on more than one board or commission simultaneously. If more than one, please list in order of priority for which you wish to be considered.) : Taylor Economic Development Corporation

List experience, training, skills or interests which you believe you could bring to this position. (Attach resume or additional pages if needed.) I bring leadership, teamwork, vision, diverse / open thinking, big and small business knowledge, and I am committed to do what is best for the community. I have worked 28 years at Fortune 500 technological companies which has allowed me to share my experiences/skills in business operations management, strategic accounting, technical recruiting, resource deployment, and analytical thinking. Simultaneously, I established and have co-owned a successful local business since 1996. I bring small business experience and knowledge to the board. As a local business owner, my insight has helped to ensure that we remember to keep small and big business' in mind when making decisions for the community. I encourage big picture and out-of-the-box thinking. I have served the

community in many different ways through volunteerism and contributions. Continuation on the TEDC board is another way that I can give back positively to my community. I firmly believe that I have been a positive influence on the TEDC for 9 years. During my tenure, I have been elected by my peers to hold the offices of Secretary, Vice Chair and currently hold the Chair position. As chair, momentum has truly been engaged. Partnerships within the community have revived, and positive messages have been shared with the community, region, and state. We have accomplished this through the Economic Development Summit, establishing committees and promoting public awareness. If appointed for another term, I believe that I can truly help to make greater strides and continue this positive momentum with our council, board, and partners through my community connections and knowledge. Ultimately creating a "Win Win for our Community" is all of our goals and I would like to continue to be a part of that goal.

APPLICANTS FOR ZONING BOARD OF ADJUSTMENTS, PLANNING AND ZONING, BUILDING AND STANDARDS COMMISSION, AND PARKS AND RECREATION BOARD MUST BE A LEGAL RESIDENT OF THE UNITED STATES AND A VOTING RESIDENT WHO LIVES AND RESIDES* IN THE CITY OF TAYLOR. *(*Effective 12/16/08. City Council Meeting January 26, 2012 Agenda Item Transmittal

Agenda Item #: 8

Agenda Title: Consider approving Resolution R12-02 calling for an election for two Council Members, one from District 2 and one from District 3 on May 12, 2012, designating polling places and providing notice of the election.

Council Action to be taken: Approve Resolution R12-02

Initiating Department: City Administration

Staff Contact: Susan Brock, City Clerk

1. INTRODUCTION/PURPOSE

Council must call an election by ordinance or resolution. The terms for Districts 2 (Mayor Pro Tem and Council Member Gonzales) and District 3 (Council Member McDonald) expire in May, 2012.

2. DESCRIPTION/ JUSTIFICATION

Pursuant to the provisions of Articles 701 and 704, Vernon's Annotated Texas statutes, as amended, the Texas Election Code, the City Charter and other related statutes the City Council of the City of Taylor, Texas, is authorized to call an election for the purpose of electing representatives of the City Council of the City of Taylor.

3. FINANCIAL/BUDGET

4. TIMELINE CONSIDERATIONS

Last day to order an election is February 14, 2012. Candidate applications can be submitted between February 6 and March 5.

5. RECOMMENDATION

Approve Resolution R12-02.

6. REFERENCE FILES

8a. [Resolution R12-02 English and Spanish](#)

RESOLUTION NO. R12-01

A RESOLUTION CALLING AN ELECTION TO BE HELD IN THE CITY OF TAYLOR, TEXAS, ON SATURDAY, MAY 12, 2012, FOR THE PURPOSE OF ELECTING TWO PERSONS AS MEMBERS OF THE CITY COUNCIL OF SAID CITY, ONE TO BE ELECTED FROM DISTRICT 2 AND ONE TO BE ELECTED FROM DISTRICT 3; DESIGNATING THE POLLING PLACES AT WHICH VOTING SHALL TAKE PLACE; APPOINTING AN EARLY VOTING CLERK AND AN EARLY VOTING BALLOT BOARD; PROVIDING FOR NOTICE OF SAID ELECTION.

WHEREAS, pursuant to the provisions of Articles 701 and 704, Vernon's Annotated Texas statutes, as amended, the Texas Election Code, the City Charter and other related statutes the City Council of the City of Taylor, Texas is authorized to call an election in order to submit to the voters of District 2 and District 3 for the purpose of electing two persons, one as the District 2 member and one as the District 3 member of the City Council of the City of Taylor.

WHEREAS, it is hereby officially found and determined that the meeting at which this resolution is approved was open to the public and public notice of the time, place and purpose of the meeting was given, as required by Chapter 551, Government Code, as amended.

THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TAYLOR:

1. An election is hereby ordered to be held in the City of Taylor, Texas, on Saturday, May 12, 2012, between the hours of 7:00 a.m. and 7:00 p.m., for the purpose of electing two persons as members of the City Council of the City of Taylor, one to be elected from District 2 and one to be elected from District 3. Person(s) filing as a candidate for such office(s) must be a resident of the election precinct for which the person files as a candidate. The person(s) elected shall be elected for a three (3) year term.

2. For the purpose of said election there shall be two election precincts more particularly described as District 2 and District 3 as set out on the map marked Exhibit "A" attached and made a part hereof for all purposes as fully as though copied herein at this place at length. Eligible voters shall vote in the election precinct in which they reside. The two polling places are as follows:

District 2 Taylor Public Library
801 Vance Street

District 3 Pasemann Elementary School
2809 North Drive

3. The Contracting Officer with the Williamson County Elections Division shall be responsible for the official ballots for said election to be prepared and printed in conformity with the Texas Election Code, adopted by the Legislature.

4. Early voting shall be conducted by personal appearance at the City of Taylor, City Hall Municipal Building, 400 Porter Street, Taylor, Texas during the period early voting is required or permitted by law, being April 30, 2012 through May 8, 2012 on each weekday. The hours designated for early voting by personal appearance shall be determined by the Contracting Officer. The polling places will also be open for voting by personal appearance on Saturday, May 12, 2012 from 7:00 a.m. to 7:00 p.m. The Contracting Officer shall serve as the early voting clerk.

5. All resident, qualified electors of Districts 2 and District 3 shall be entitled to vote at the election.

6. The City Clerk of the City of Taylor shall give notice of election in the manner required by the Charter of the City of Taylor and the Texas Election Code and shall further give notice by posting a copy of this resolution on the bulletin board in the City Hall in Taylor, Texas, at least twenty (20) days before the election date.

PASSED and APPROVED by the City Council of the City of Taylor this the 26th day of January, 2012.

Donald Hill, Mayor
Taylor City Council

ATTEST:

Susan Brock, City Clerk

RESOLUCIÓN N° R12-02

UNA RESOLUCIÓN CONVOCANDO UNA ELECCIÓN A CELEBRARSE EN LA CIUDAD DE TAYLOR, TEXAS, EL SÁBADO 12 DE MAYO DE 2012, CON EL PROPÓSITO DE ELEGIR A DOS PERSONAS COMO MIEMBROS DEL AYUNTAMIENTO MUNICIPAL DE TAL CIUDAD, UNO A SER ELEGIDO POR PARTE DEL DISTRITO 2 Y UNO A SER ELECTO POR PARTE DEL DISTRITO 3; DESIGNANDO LOS LUGARES DE VOTACIÓN DONDE SE LLEVARÁ A CABO LA VOTACION; NOMBRANDO A UN ADMINISTRADOR DE VOTACION TEMPRANA Y A UNA JUNTA DE VOTACIÓN TEMPRANA; Y CONTEMPLANDO LA NOTIFICACIÓN DE DICHA ELECCIÓN.

POR CUANTO, de acuerdo a lo estipulado en los Artículos 701 y 704 de los Estatutos Anotados de Vernon's (Vernon's Annotated Texas Statutes), según enmendados, el Código Electoral de Texas, los Estatutos Municipales y otros estatutos relacionados, el Ayuntamiento Municipal de la Ciudad de Taylor, Texas, queda autorizado a convocar una elección para la consideración de los electores del Distrito 2 y el Distrito 3 con el propósito de elegir a dos personas, uno como miembro del Distrito 2 y la otra como miembro del Distrito 3 del Ayuntamiento Municipal de la Ciudad de Taylor.

POR CUANTO, se halla y determina oficialmente que la reunión en la cual esta resolución fue adoptada fue abierta al público, y que se dio aviso público de la fecha, lugar y propósito de la reunión, como se contempla en el Capítulo 551, Código del Gobierno, según enmendado.

POR TANTO, EL AYUNTAMIENTO MUNICIPAL DE LA CIUDAD DE TAYLOR RESUELVE LO SIGUIENTE:

1. Se ordena por este medio una elección a celebrarse en la Ciudad de Taylor, Texas, el Sábado 12 de Mayo de 2012, entre las 7:00 a.m. y las 7:00 p.m., con el propósito de elegir a dos personas como miembros del Ayuntamiento Municipal de la Ciudad de Taylor, una de las cuales será elegida del Distrito 2 y la otra será elegida del Distrito 3. La(s) persona(s) que se postulen como candidatos para dicho cargo o cargos deberán ser residentes del precinto electoral en el cual se postula(n) como candidato(s). La(s) persona(s) electas servirán en su capacidad por un período de tres (3) años.

2. Con motivo de esta elección habrá dos precintos electorales descritos particularmente como Distrito 2 y Distrito 3, según se establece en el mapa adjunto marcado como Exposición "A" y hace parte del mismo para todos los propósitos tan completamente como está copiado aquí en este lugar en detalle. Los votantes deben votar en el precinto electoral donde residen. Los dos lugares de votación son los siguientes.

Distrito 2 Taylor Public Library
801 Vance Street

Distrito 3 Pasemann Elementary School

3. El Oficial de Contrataciones con la División de Elecciones del Condado de Williamson se encargará de que las papeletas oficiales para dicha elección sean preparadas e impresas conforme al Código Electoral de Texas, adoptado por la Legislatura.

4. La votación temprana se realizará en persona en la Ciudad de Taylor, City Hall Municipal Building, 400 Porter Street, Taylor, Texas durante el período requerido o permitido por ley para la votación temprana, siendo éste del 30 de Abril de 2012 hasta el 8 de Mayo de 2012, cada día de la semana. El horario designado para la votación temprana en persona serán determinadas por el Oficial de Contrataciones. Los lugares de votación también serán abiertos para votación en persona el Sábado, 12 de Mayo de 7:00 a.m. a 7:00 p.m. El Oficial de Contrataciones servirá como administrador de votación temprana.

5. Todo residente del Distrito 2 y del Distrito 3 calificado para votar, tendrá derecho a votar en la elección.

6. El Secretario de la Ciudad de Taylor dará aviso de esta elección en la manera requerida por el estatuto de la Ciudad de Taylor y el Código Electoral de Texas y dará aviso también colocando una copia de esta resolución en el tablero de anuncios en el Ayuntamiento Municipal de Taylor, Texas, por lo menos veinte (20) días antes de la fecha de la elección.

ADOPTADO y APROVADO por el Ayuntamiento Municipal de la Ciudad De Taylor este día 26 del mes de enero de 2012.

Donald Hill, Mayor
Ayuntamiento, Ciudad de Taylor

ATESTIGUA:

Susan Brock, Secretaria de la Ciudad

***City Council Meeting
January 26, 2012
Agenda Item Transmittal***

Agenda Item #: 9
Agenda Title: Receive and discuss City Street Pavement Report
Council Action to be taken: Receive Report
Initiating Department: City Manager's Office / Contract Engineer
Staff Contact: Jim Dunaway, City Manager

1. INTRODUCTION/PURPOSE

To receive and discuss a detailed report as requested by Council on city street conditions and inventory.

2. DESCRIPTION/ JUSTIFICATION

In an effort to develop a strategy to address street maintenance and repair needs, Sledge Engineering was tasked with performing a detailed City Street Pavement Inventory and Report to collect empirical data on the condition of all City streets. All City streets have been examined, evaluated and scored based on their current paving condition. Also reviewed was the state of curb and gutter and bar ditch areas.

Casey Sledge will be prepared to discuss in detail the condition of streets, estimated maintenance costs (the investment needed to maintain our streets in their current condition) and the costs and options for streets reconstruction and repair.

3. FINANCIAL/BUDGET

To be determined

4. TIMELINE CONSIDERATIONS

5. RECOMMENDATION

Receive report and provide feedback.

INTRODUCTION

The City of Taylor has dealt with the issues created by poor street quality for many years. While Taylor was fortunate enough to have paved streets a century ago when few cities did, this long term amenity has led to poor street conditions with a high price tag. Wikipedia (<http://en.wikipedia.org>) even references Taylor's street condition:

"The condition of many of Taylor's streets has been an issue for decades. An article in the Taylor Daily Press (April, 2010) reported: 'In 1948, three men ran in a City of Taylor election as 'The Peoples Ticket.' In a letter to the voting public, L.D. Hammack, Louis Kincl and R.E. Kollman told the community: 'Let's get better streets as soon as possible.' Their concerns echo the same ones we hear today: improving and paying for Taylor's dilapidated streets and aging infrastructure.'" [Taylor Daily Press; April 10, 2011; http://taylordailypress.net/news/article_9d4ed3ea-6243-11e0-864c-001cc4c002e0.html]

The City hired Sledge Engineering, LLC in May 2011 to create a Pavement Management System for public streets within the City limits. The Pavement Management System includes data collection, data analysis, database creation, cost estimating, pavement rehabilitation options, and reporting. This report addresses both street maintenance and rehabilitation in effort to give the City the information needed to tackle street conditions and improvements.

PAVEMENT MANAGEMENT SYSTEMS

All cities should strive to create and utilize a **Pavement Management System** where all city streets are organized and have a life-cycle plan for both physical work and funding. Streets should be programmed to have a perpetual life; that is, with proper structure and proper continual maintenance, the street would last forever.

The first step in this process is data collection, which includes a street inventory to determine the amount and condition of all city streets. The street inventory will assess the condition of each street, which will determine the type of work needed to repair the street. This is followed by prioritization of work to be completed, both rehabilitation and maintenance. The level of work required to repair a street depends on the structural condition. In general, a street has failed when the structure (base) under the surface has lost integrity. A failed street requires some level of rehabilitation. If the street has primarily surface problems, it can usually be saved with corrective maintenance work.

Other key factors in a Pavement Management System include public and private utilities. Most streets are adjacent to or on top of several public and private utilities such as water, wastewater, electric, natural gas, phone, cable, fiber, etc. It is prudent to remove or replace any aging or undersized utilities under or adjacent to a street prior to investing in the street itself. This is to prevent the new pavement from being damaged from the failing utility or from the replacement of the utility. Utility replacement or relocation often has a significant cost, similar to that of pavement replacement in many cases. It is therefore critical to consider utilities when considering street priorities. Utilities are often replaced or relocated when

performing street rehabilitation.

Drainage systems are another large factor with street systems; both drainage along the street (down the curb or ditch into inlets etc.) and cross-drainage such as a bridge under the street. It is prudent to consider installing adequate drainage under streets before investing in rehabilitation. Drainage costs can be very significant depending on the location. Properly designed streets can solve existing drainage problems if evaluated correctly.

Other factors include traffic and pedestrian planning. Street design should consider existing and future traffic demand, street widths, controls such as signage and signals, as well as sidewalks, crossings, and trails. Even if all these items aren't installed, they should be considered and planned for.

If a Pavement Management System gets adequate funding and is implemented correctly, street rehabilitation would, in theory, eventually be completed and the entire street system would fall into the maintenance category. This, of course, is what cities should strive to reach.

Funding will likely always be the most difficult part for Taylor to overcome, but the System should start with an adequate plan and strategies.

DATA COLLECTION

The United States Army Corp of Engineers developed ASTM International Standard D6433: Standard Practice for Roads and Parking Lots Pavement Condition Index Surveys. ASTM D6433 outlines how to determine and score pavement condition through visual surveys using the Pavement Condition Index (PCI) method.

We used ASTM D6433 methodology during our data collection phase and visual surveys. We performed on the ground visual inspections of every segment of every street within the current City limits. We utilized the City's gasoline powered meter reading vehicle for improved inspection and safety. This portion of the work was performed during the Summer of 2011.

Utilizing the City's Geographic Information System (GIS) mapping and existing database, we established identification numbers for every segment of street. A segment is generally the length of street between two intersecting points. Often, the segments are a city block (approximately 300 linear feet) in length, but can be longer or shorter depending on location.

In addition to inspecting pavement conditions, we also chose to examine several other factors that might determine the future cost of street rehabilitation or maintenance. Though typically not done in pavement condition surveys, we inventoried curb & gutter, bar ditches, water mains, and wastewater mains.

We specifically assessed the condition of curb & gutter independent of the street pavement. Curb & gutter is typically assessed as part of the pavement, but we felt Taylor's inventory might benefit from having the

information independent. There are several segments with failed pavement but with acceptable curb & gutter. This information certainly allows more flexibility in planning street work and priorities.

The extra data gathered will help determine all future needs and capital costs and prevent surprises in the construction phase. We did not consider the costs of adjusting or relocating private utility adjustments as the City's franchise agreements typically require the utility to pay these costs directly.

Visual street inspections examined 19 different types of pavement distress for asphalt streets per the ASTM Standard. The distress types are:

Alligator Cracking	Bleeding
Block Cracking	Weathering/Raveling
Utility Patch	Polished Aggregate
Depression	Edge Cracking
Potholes	Bumps/sags
Corrugation	Rutting
Railroad Crossing	Shoving
Slippage	Swelling
Joint Reflection cracking	
Shoulder drop off	
Longitudinal cracking	

Each distress type was examined for level of severity and frequency within each segment evaluated. Each segment utilized an inspection form to record the data.

We created an interactive database with all segment data, Pavement Condition Index scores, utility and bar ditch information, curb & gutter assessment, rankings, costs to rehabilitate and maintain, and unit price information for future adjustment of cost data. The City should consider updating the inventory data every 5 years or so or when significant work is performed on streets or when new streets are added to the system.

We also input all the data into the City's existing GIS database, which can be mapped and queried based on any data desired.

The City's GIS mapping created over 1,600 segments, including TxDOT, County, and privately owned streets. We determined that the City has 1,207 segments. Maps showing PCI scores per street can be found in the Appendix.

DATA ANALYSIS

Though originally estimated to be 87 miles, there are actually 105 miles of City owned streets in Taylor. We determined there are:

- **1,207 segments**
- **105 miles of street**
- **27.49 feet is the average street width**
- **15,234,125 square feet of pavement**
- **1,692,681 square yards of pavement**
- **51 miles of water main under pavement**
- **36 miles of water main under pavement that needs to be replaced**
- **20 miles of wastewater main under pavement**
- **10 miles of wastewater main under pavement that needs to be replaced**
- **41 miles of street with bar ditches (82 miles of ditch)**
- **57 miles of street with concrete curb & gutter (114 miles of curb & gutter)**
- **24 miles of street with failed curb & gutter**

This data is shown graphically as follows:

Water Main Under Streets (miles)

Wastewater Main Under Streets (miles)

While ASTM D6433 established categories of PCI scores, we customized our own categories to better communicate what was observed. Our categories are as follows:

<u>PCI SCORE</u>	<u>Category</u>
0 to 59	POOR
60 to 69	FAIR
70 to 89	GOOD
90 to 100	EXCELLENT

The detailed extent and severity data of each distress type are combined and converted to an overall Pavement Condition Index (PCI) score, which can range from 0 to 100. A PCI of 100 indicates that there is no occurrence of distress. The lower the PCI, the higher the extent and severity of distress. We determined the average PCI in Taylor is 53 and the median PCI is 48. The database shows the PCI for each of the 1,207 street segments. The city-wide PCI is as follows:

PCI Report (categories)

PCI Report (categories)

PCI Report (pass/fail)

PCI Report (pass/fail)

Pavement Condition Index and Pavement Life Cycle

The graph below shows the relationship between PCI and pavement life. Note the curve that depicts a pavement starting at a PCI of 100 and eventually going to 0 if the street is not properly maintained. If maintenance is performed before the PCI drops below 60, the pavement can be saved and the life extended without needing full rehabilitation. If the PCI drops below 60, the pavement will have to be rehabilitated at a much greater cost. Note that, ideally, maintenance work would recur every 7-10 years, giving the pavement a perpetual life while maintaining a PCI above 60. The goal for Taylor should be a PCI of 70 or greater. Streets that are in the FAIR category (PCI of 60-69) are critical and should be prioritized before the PCI falls below 60.

The unit costs used to determine each segment were developed using current dollars and do not reflect any interest or inflation. The costs can be conveniently changed in the database to reflect any changes. The ability to examine costs for any PCI goal is now available using the database.

The unit prices used in this report are as follows:

UNIT PRICES			
ITEM	Unit	Unit Price	Description
Water Main	LF	\$ 50.00	Assumes new 8" C900 PVC with hydrants and fittings, no road patch
Wastewater Main	LF	\$ 60.00	Assumes new 8" SDR26 PVC with manholes, no road patch, assumes avg depth of 6'
Curb & Gutter	LF	\$ 18.00	reinforced concrete per Engineering Manual
Pavement A	SY	\$ 58.00	Full Rehabilitation - HEAVY
Pavement B	SY	\$ 50.00	Full Rehabilitation - LIGHT
Pavement C	SY	\$ 30.00	Modified HMA HEAVY
Pavement D	SY	\$ 22.00	Modified Chip Seal HEAVY
Pavement E	SY	\$ 25.00	Modified HMA LIGHT
Pavement F	SY	\$ 20.00	Modified Chip Seal LIGHT
Pavement G	SY	\$ 10.00	Corrective Maintenance
Pavement H	SY	\$ 7.00	Rip & Chip; to buy time and gain shape
Pavement I	SY	\$ 2.00	Preventive Maintenance: crack sealing, fog seal

We considered 9 types of pavement rehabilitation and maintenance to give greater flexibility while prioritizing repairs. The 9 types are as follows:

	2.5" HMAC
Pavement A Full Rehabilitation HEAVY	12" Flex Base
	36" Select Fill
	2.0" HMAC
Pavement B Full Rehabilitation LIGHT	9" Flex Base
	24" Select Fill
	2.5" HMAC
Pavement C Modified HMA HEAVY	12" Cement Treated Recycled Base
	2 course Chip Seal
Pavement D Modified Chip Seal HEAVY	15" Cement Treated Recycled Base
	2.0" HMAC
Pavement E Modified HMA LIGHT	10" Cement Treated Recycled Base
	2 course Chip Seal
Pavement F Modified Chip Seal LIGHT	12" Cement Treated Recycled Base

Pavement G Corrective Maintenance	1 course Chip Seal					
	patch, level up					
Pavement H Rip & Chip	1 course Chip Seal					
	6" Flex Base					
	Ripped Existing pavement					
Pavement I Preventive Maintenance	crack sealing, fog seal					

These pavement types are the result of our experience and pavement and geotechnical designs (Alliance Geotechnical Group was utilized as a source for these pavement types). These pavement types are not intended to be used for the design of any streets. New street design should have site-specific geotechnical investigation and pavement design performed. The highly expansive clay soils throughout Taylor only reinforce this need.

Note that even the Pavement A section is not intended to fully mitigate the shrink-swell cycles of Taylor's expansive soil. Pavement A would likely perform well but would still be subject to vertical rise. Pavement designed to eliminate vertical rise is possible, but is not considered to be cost-effective when compared to pavement life cycle maintenance options. The pavement sections presented are intended to offer varying degrees of stability and cost effectiveness.

COSTS

The database allows for numerous cost estimating options and evaluates the cost per segment with options to consider curbs, water, wastewater, and different pavement types. Costs can now be evaluated depending on funding, timing, and desired outcome.

With regards to costs, this report will focus on two primary scenarios:

- 1. Cost to maintain existing PCI levels**
- 2. Cost to get to all streets to a PCI 70**

The most critical item to consider with pavement life cycle costs is the recurring maintenance cost. The following cost information assumes corrective and preventive maintenance costs for all streets with a PCI of 60 or higher and Pavement A rehabilitation costs for all streets with a PCI below 60.

- This scenario only includes work on EXCELLENT, GOOD, and FAIR streets. POOR streets are not included to simply maintain existing city wide PCI levels
- \$3.9M Year 1 cost on all streets with PCI 60+
- \$950K/year afterwards for annual program takes care of all streets that are not failed (PCI = 60+)
- Annual program would have to continue beyond 20 years
- 20 year total of \$21.9M is equivalent to \$1.1 M annually.
- This protects 'passing' streets value of \$47M
- This does not address any streets with PCI below 60.

- \$66.5M Year 1 cost on all streets
- \$2M/year afterwards for annual program would cover all streets
- Annual program would have to continue beyond 20 years
- 20 year total of \$104.5M is equivalent to \$5.2 M annually
- This places all streets in maintenance mode, completing all rehabilitation work
- If Pavement options other than 'A' are used, initial capital cost would be lower, but maintenance frequency and annual costs would be higher.

RECOMMENDATIONS

Undoubtedly, the cost of simply maintaining current PCI levels is very significant when considering today's annual budget for Taylor. In order to not settle for only maintaining current conditions, Taylor will be required to be creative and perhaps unconventional to improve overall PCI levels.

In order to improve its position, Taylor will have to either raise significant funds or reduce the amount of pavement that is maintained. If funds are raised, they will most likely come from an increase in ad valorem taxes, as external funding assistance for local streets is non-existent. Reducing the amount of pavement maintained would be unconventional but not unheard of. In recent years, other communities have reduced asphalt and concrete pavements back to chip-seal or gravel streets when faced with similar situations. Pavement H (Rip & Chip) was added as an option specifically for this.

It is imperative financially to prevent any existing passing streets from failing. **This past allowance is responsible for Taylor's present condition.**

Another direction to consider is creating a **Street Maintenance Division** dedicated to street maintenance and rehabilitation. An in-house Division could lower cost but would require an annual financial commitment from the operating budget. It could allow maintenance work to react to priorities at the time (utility cuts, complaints, etc.) and would also require a significant operating budget depending on staffing, type of work, etc. It could involve capital purchases (maintainer, distributor for chip seal etc.), or leases (recycling equipment, asphalt installation equipment etc.) for seasonal work.

Before rehabilitation is planned for any street, the costs to properly maintain for perpetuity must be considered. If funds are spent on rehabilitation without adequate funds for maintenance, the funds will eventually be lost and would have only bought good pavement for a limited time (generally 20 years).

A detailed capital improvement plan can be extrapolated from the database that considers available funding and desired priorities. As funding availability and program goals are established, a detailed capital improvement plan should be prioritized.

Taylor's street condition issues are far from resolved, but this report provides the information needed to make tough decisions and move towards a pavement system that offers an affordable, perpetual life.

.....

APPENDIX

❖ PAVEMENT DISTRESS TYPES

❖ TAYLOR STREET DATABASE

❖ PCI STREET MAPS

❖ PAVEMENT DISTRESS TYPES

Alligator Cracking (Fatigue)

Description

Alligator or fatigue cracking is a series of interconnecting cracks caused by fatigue failure of the asphalt concrete surface under repeated traffic loading. Cracking begins at the bottom of the asphalt surface (or stabilized base) where tensile stress and strain are highest under a wheel load. The cracks propagate to the surface initially as a series of parallel longitudinal cracks. After repeated traffic loading, the cracks connect, forming many sided, sharp-angled pieces that develop a pattern resembling chicken wire or the skin of an alligator. The pieces are generally less than 0.5 m (1.5 ft) on the longest side. Alligator cracking occurs only in areas subjected to repeated traffic loading, such as wheel paths. (Pattern-type cracking that occurs over an entire area not subjected to loading is called "block cracking," which is not a load-associated distress.)

Severity Levels

- L** Fine, longitudinal hairline cracks running parallel to each other with no, or only a few interconnecting cracks. The cracks are not spalled (Figure 1 a).
- M** Further development of light alligator cracks into a pattern or network of cracks that may be lightly spalled (Figure 1 b).
- H** Network or pattern cracking has progressed so that the pieces are well defined and spalled at the edges. Some of the pieces may rock under traffic (Figure 1c).

How to Measure

Alligator cracking is measured in square meters (feet) of surface area. The major difficulty in measuring this type of distress is that two or three levels of severity often exist within one distressed area. If these portions can be easily distinguished from each other, they should be measured and recorded separately. However, if the different levels of severity cannot be divided easily, the entire area should be rated at the highest severity present. If alligator cracking and rutting occur in the same area, each is recorded separately as its respective severity level.

Bleeding

Description

Bleeding is a film of bituminous material on the pavement surface that creates a shiny, glasslike, reflecting surface that usually becomes quite sticky. Bleeding is caused by excessive amounts of asphaltic cement or tars in the mix, excess application of a bituminous sealant, and/or low air void content. It occurs when asphalt fills the voids of the mix during hot weather and then expands onto the pavement surface. Since the bleeding process is not reversible during cold weather, asphalt or tar will accumulate on the surface.

Severity Levels

- L** Bleeding has only occurred to a very slight degree and is noticeable only during a few days of the year. Asphalt does not stick to shoes or vehicles (Figure 2a).
- M** Bleeding has occurred to the extent that asphalt sticks to shoes and vehicles during only a few weeks of the year (Figure 2b).
- H** Bleeding has occurred extensively and considerable asphalt sticks to shoes and vehicles during at least several weeks of the year (Figure 2c).

How to Measure

Bleeding is measured in square meters (feet) of surface area. If bleeding is counted, polished aggregate should not be counted.

Block Cracking

Description

Block cracks are interconnected cracks that divide the pavement into approximately rectangular pieces. The blocks may range in size from approximately 0.3 by 0.3 m (1 by 1 ft) to 3 by 3 m (10 by 10 ft). Block cracking is caused mainly by shrinkage of the asphalt concrete and daily temperature cycling (which results in daily stress/strain cycling). It is not load-associated. Block cracking usually indicates that the asphalt has hardened significantly. Block cracking normally occurs over a large portion of the pavement area, but sometimes will occur only in non-traffic areas. This type of distress differs from alligator cracking in that alligator cracks form smaller, many-sided pieces with sharp angles. Also, unlike block, alligator cracks are caused by repeated traffic loadings, and are therefore found only in traffic areas (i.e., wheel paths).

Severity Levels

L Blocks are defined by low-severity* cracks (Figure 3a).

M Blocks are defined by medium-severity* cracks (Figure 3b).

H Blocks are defined by high-severity* cracks (Figure 3c).

How to Measure

Block cracking is measured in square meters (feet) of surface area. It usually occurs at one severity level in a given pavement section. However, if areas of different severity levels can be easily distinguished from one another, they should be measured and recorded separately.

Bumps and Sags

Description

Bumps are small, localized, upward displacements of the pavement surface. They are different from shoves in that shoves are caused by unstable pavement. Bumps, on the other hand, can be caused by several factors, including:

1. Buckling or bulging of underlying PCC slabs in AC overlay over PCC pavement.
2. Frost heave (ice, lens growth).
3. Infiltration and buildup of material in a crack in combination with traffic loading (sometimes called "tenting").

Sags are small, abrupt, downward displacements of the pavement surface. If bumps appear in a pattern perpendicular to traffic flow and are spaced at less than 3 m (10 ft), the distress is called corrugation. Distortion and displacement that occur over large areas of the pavement surface, causing large and/or long dips in the pavement should be recorded as "swelling."

Severity Levels

L Bump or sag causes low-severity ride quality (Figure 4a).

M Bump or sag causes medium-severity ride quality (Figure 4b).

H Bump or sag causes high-severity ride quality (Figure 4c).

How to Measure

Bumps or sags are measured in linear meters (feet). If the bump occurs in combination with a crack, the crack is also recorded.

Corrugation

Description

Corrugation (also known as "washboarding") is a series of closely spaced ridges and valleys (ripples) occurring at fairly regular intervals, usually less than 3 m (10 ft) along the pavement. The ridges are perpendicular to the traffic direction. This type of distress is usually caused by traffic action combined with an unstable pavement surface or base.

Severity Levels

L Corrugation produces low-severity ride quality (Figure 5a).

M Corrugation produces medium-severity ride quality (Figure 5b).

H Corrugation produces high-severity ride quality (Figure 5c).

How to Measure

Corrugation is measured in square meters (feet) of surface area.

Depression

Description

Depressions are localized pavement surface areas with elevations slightly lower than those of the surrounding pavement. In many instances, light depressions are not noticeable until after a rain, when ponding water creates a "birdbath" area; on dry pavement, depressions can be spotted by looking for stains caused by ponding water. Depressions are created by settlement of the foundation soil or are a result of improper construction. Depressions cause some roughness, and when deep enough or filled with water, can cause hydroplaning.

Severity Levels

Maximum Depth of Depression

L 13 to 25 mm (1/2 to 1 in.) (Figure 6a).

M 25 to 50 mm (1 to 2 in.) (Figure 6b).

H More than 50 mm (2 in.) (Figure 6c).

How to Measure

Depressions are measured in square meters (feet) of surface area.

Edge Cracking

Description

Edge cracks are parallel to and usually within 0.3 to 0.5 m (1 to 1.5 ft) of the outer edge of the pavement. This distress is accelerated by traffic loading and can be caused by frost-weakened base or subgrade near the edge of the pavement. The area between the crack and pavement edge is classified as raveled if it is broken up (sometimes to the extent that pieces are removed).

Severity Levels

- L** Low or medium cracking with no breakup or raveling (Figure 7a).
- M** Medium cracks with some breakup and raveling (Figure 7b).
- H** Considerable breakup or raveling along the edge (Figure 7c).

How to Measure

Edge cracking is measured in linear meters (feet).

Joint Reflection Cracking

(From Longitudinal and Transverse PCC Slabs)

Description

This distress occurs only on asphalt-surfaced pavements that have been laid over a PCC slab. It does not include reflection cracks from any other type of base (i.e., cement- or lime-stabilized); these cracks are caused mainly by thermal-or moisture-induced movement of the PCC slab beneath the AC surface. This distress is not load-related; however, traffic loading may cause a breakdown of the AC surface near the crack. If the pavement is fragmented along a crack, the crack is said to be spalled. A knowledge of slab dimension beneath the AC surface will help to identify these distresses.

Severity Levels

- L** One of the following conditions exists (Figure 8a): (1) Non-filled crack width is < 10 mm (3/8 in.), or (2) filled crack of any width (filler in satisfactory condition).
- M** One of the following conditions exists (Figure 8b): (1) Non-filled crack width is > 10 mm (3/8 in.) and < 75 mm (3 in.); (2) non-filled crack < 75 mm (3 in.) surrounded by light secondary cracking, or (3) filled crack of any width surrounded by light secondary cracking.
- H** One of the following conditions exists (Figure 8c): (1) Any crack filled or non-filled surrounded by medium or high severity secondary cracking; (2) non-filled cracks > 75 mm (3 in.), or (3) a crack of any width where approximately 100 mm (4 in.) of pavement around the crack are severely raveled or broken.

How to Measure

Joint reflection cracking is measured in linear meters (feet). The length and severity level of each crack should be identified and recorded separately. For example, a crack that is 15 m (50 ft) long may have 3 m (10 ft) of high severity cracks; these are all recorded separately. If a bump occurs at the reflection crack, it is also recorded.

Lane/Shoulder Drop-Off

Description

Lane/shoulder drop-off is a difference in elevation between the pavement edge and the shoulder. This distress is caused by shoulder erosion, shoulder settlement, or by building up the roadway without adjusting the shoulder level.

Severity Levels

- L** The difference in elevation between the pavement edge and shoulder is > 25 mm (1 in.) and < 50 mm (2 in.) (Figure 9a).
- M** The difference in elevation is > 50 mm (2 in.) and < 100 mm (4 in.) (Figure 9b).
- H** The difference in elevation is > 100 mm (4 in.) (Figure 9c).

How to Measure

Lane/shoulder drop-off is measured in linear meters (feet).

Longitudinal and Transverse Cracking (Non-PCC Slab Joint Reflective)

Description

Longitudinal cracks are parallel to the pavement's centerline or laydown direction. They may be caused by:

1. A poorly constructed paving lane joint.
2. Shrinkage of the AC surface due to low temperatures or hardening of the asphalt and/or daily temperature cycling.
3. A reflective crack caused by cracking beneath the surface course, including cracks in PCC slabs (but not PCC joints).

Transverse cracks extend across the pavement at approximately right angles to the pavement centerline or direction of laydown. These types of cracks are not usually load-associated.

Severity Levels

- L** One of the following conditions exists (Figure 10a): (1) Non-filled crack width is < 10 mm (3/8 in.), or (2) filled crack of any width (filler in satisfactory condition).
- M** One of the following conditions exists (Figure 10b): (1) Non-filled crack width is > 10 mm (3/8 in.) and < 75 mm (3 in.); (2) non-filled crack is < 75 mm (3 in.) surrounded by light and random cracking, or (3) filled crack is any width surrounded by light random cracking.
- H** One of the following conditions exists (Figure 10c): (1) Any crack filled or non-filled surrounded by medium-or high-severity random cracking, (2) non-filled crack > 75 mm (3 in.), or (3) a crack of any width where approximately 100 mm (4 in.) of pavement and the crack is severely broken.

How to Measure

Longitudinal and transverse cracks are measured in linear meters (feet). The length and severity of each crack should be recorded. If the crack does not have the same severity level along its entire length, each portion of the crack having a different severity level should be recorded separately.

Patching and Utility Cut Patching

Description

A patch is an area of pavement that has been replaced with new material to repair the existing pavement. A patch is considered a defect no matter how well it is performing (a patched area or adjacent area usually does not perform as well as an original pavement section). Generally, some roughness is associated with this distress.

Severity Levels

- L** Patch is in good condition and satisfactory. Ride quality is rated as low severity or better (Figure 11 a).
- M** Patch is moderately deteriorated and/or ride quality is rated as medium severity (Figure 11 b).
- H** Patch is badly deteriorated and/or ride quality is rated as high severity. Needs replacement soon (Figure 11 c).

How to Measure

Patching is rated in square feet of surface area. However, if a single patch has areas of differing severity, these areas should be measured and recorded separately. For example, a 2.5 m² (27.0 sq. ft) patch may have 1 m² (11.0 sq. ft) of medium severity and 1.5 m² (16.0 sq. ft) of low severity. These areas would be recorded separately. Any distress found in a patched area will not be recorded; however, its effect on the patch will be considered when determining the patch's severity level. No other distress (e.g., shoving and cracking) are recorded within a patch; even if the patch material is shoving or cracking, the area is rated only as a patch. If a large amount of pavement has been replaced, it should not be recorded as a patch, but considered as new pavement (e.g., replacement of a complete intersection).

Polished Aggregate

Description

This distress is caused by repeated traffic applications. Polished aggregate is present when close examination of a pavement reveals that the portion of aggregate extending above the asphalt is either very small, or there are no rough or angular aggregate particles to provide good skid resistance. When the aggregate in the surface becomes smooth to the touch, adhesion with vehicle tires is considerably reduced. When the portion of aggregate extending above the surface is small, the pavement texture does not significantly contribute to reducing vehicle speed. Polished aggregate should be counted when close examination reveals that the aggregate extending above the asphalt is negligible, and the surface aggregate is smooth to the touch. This type of distress is indicated when the number on a skid resistance test is low or has dropped significantly from a previous rating.

Severity Levels

No degrees of severity are defined. However, the degree of polishing should be clearly evident in the sample unit in that the aggregate surface should be smooth to the touch (Figure 12).

How to Measure

Polished aggregate is measured in square meters (feet) of surface area. If bleeding is counted, polished aggregate should not be counted.

Potholes

Description

Potholes are small — usually less than 750 mm (30 in.) in diameter — bowl-shaped depressions in the pavement surface. They generally have sharp edges and vertical sides near the top of the hole. When holes are created by high-severity alligator cracking, they should be identified as potholes, not as weathering.

Severity Levels

The levels of severity for potholes less than 750 mm (30 in.) in diameter are based on both the diameter and the depth of the pothole, according to Table 1.

Table 1. Levels of Severity for Potholes

	Average Diameter (mm) (in.)		
Maximum Depth of Pothole	100 to 200 mm (4 to 8 in.)	200 to 450 mm (8 to 18 in.)	450 to 750 mm (18 to 30 in.)
13 to < 25 mm (1/2 to 1 in.)	L	L	M
> 25 and < 50 mm (1 to 2 in.)	L	M	H
> 50 mm (2 in.)	M	M	H

If the pothole is more than 750 mm (30 in.) in diameter, the area should be determined in square feet and divided by 0.5 m² (5.5 sq. ft) to find the equivalent number of holes. If the depth is 25 mm (1 in.) or less, the holes are considered medium severity. If the depth is more than 25 mm (1 in.), they are considered high severity (Figures 13a through 13c).

How to Measure

Potholes are measured by counting the number that are low, medium, and high severity and recording them separately.

Railroad Crossing

Description

Railroad crossing defects are depressions or bumps around and/or between tracks.

Severity Levels

- L** Railroad crossing causes low-severity ride quality (Figure 14a).
- M** Railroad crossing causes medium-severity ride quality (Figure 14b).
- H** Railroad crossing causes high-severity ride quality (Figure 14c).

How to Measure

The area of the crossing is measured in square meters (feet) of surface area. If the crossing does not affect ride quality, it should not be counted. Any large bump created by the tracks should be counted as part of the crossing.

Rutting

Description

A rut is a surface depression in the wheel paths. Pavement uplift may occur along the sides of the rut, but, in many instances, ruts are noticeable only after a rainfall when the paths are filled with water. Rutting stems from a permanent deformation in any of the pavement layers or subgrades, usually caused by consolidated or lateral movement of the materials due to traffic load.

Severity Levels

Mean Rut Depth

L 6 mm (1/4 in.) to 13 mm (1/2 in.) (Figure 15a).

M >13 mm (>1/2 in.) to 25 mm (1 in.) (Figure 15b).

H > 25 mm (>1 in.) (Figure 15c).

How to Measure

Rutting is measured in square meters (feet) of surface area and its severity is determined by the mean depth of the rut (see above). The mean rut depth is calculated by laying a straight edge across the rut, measuring its depth, then using measurements taken along the length of the rut to compute its mean depth in millimeters.

Shoving

Description

Shoving is a permanent, longitudinal displacement of a localized area of the pavement surface caused by traffic loading. When traffic pushes against the pavement, it produces a short, abrupt wave in the pavement surface. This distress normally occurs only in unstable liquid asphalt mix (cutback or emulsion) pavements.

Shoves also occur where asphalt pavements abut PCC pavements; the PCC pavements increase in length and push the asphalt pavement, causing the shoving.

Severity Levels

- L** Shove causes low-severity ride quality (Figure 16a).
- M** Shove causes medium-severity ride quality (Figure 16b).
- H** Shove causes high-severity ride quality (Figure 16c).

How to Measure

Shoves are measured in square meters (feet) of surface area. Shoves occurring in patches are considered in rating the patch, not as a separate distress.

Slippage Cracking

Description

Slippage cracks are crescent or half-moon shaped cracks, usually transverse to the direction of travel. They are produced when braking or turning wheels cause the pavement surface to slide or deform. This distress usually occurs in overlaps when there is a poor bond between the surface and the next layer of the pavement structure.

Severity Levels

- L Average crack width is < 10 mm ($3/8$ in.) (Figure 17a).
- M One of the following conditions exists (Figure 17b): (1) Average crack width is > 10 mm ($> 3/8$ in.) and < 40 mm ($< 1-1/2$ in.); (2) the area around the crack is moderately spalled and/or surrounded with secondary cracks.
- H One of the following conditions exists (Figure 17c): (1) The average crack width is > 40 mm ($1-1/2$ in.), or (2) the area around the crack is broken into easily removed pieces.

How to Measure

The area associated with a given slippage crack is measured in square meters (feet) and rated according to the highest level of severity in the area.

Swell

Description

Swell is characterized by an upward bulge in the pavement's surface — a long, gradual wave more than 3 m (10 ft) long (Figure 18). Swelling can be accompanied by surface cracking. This distress is usually caused by frost action in the subgrade or by swelling soil.

Severity Levels

- L** Swell causes low-severity ride quality. Low-severity swells are not always easy to see, but can be detected by driving at the speed limit over the pavement section. An upward motion will occur at the swell if it is present.
- M** Swell causes medium-severity ride quality.
- H** Swell causes high-severity ride quality.

How to Measure

The surface area of the swell is measured in square meters (feet).

Weathering and Raveling

Description

Weathering and raveling are the wearing away of the pavement surface due to a loss of asphalt or tar binder and dislodged aggregate particles. These distresses indicate that either the asphalt binder has hardened appreciably or that a poor-quality mixture is present. In addition, raveling may be caused by certain types of traffic, e.g., tracked vehicles. Softening of the surface and dislodging of the aggregates due to oil spillage are also included under raveling.

Severity Levels

- L Aggregate or binder has started to wear away. In some areas, the surface is starting to pit (Figure 19a). In the case of oil spillage, the oil stain can be seen, but the surface is hard and cannot be penetrated with a coin.
- M Aggregate or binder has worn away. The surface texture is moderately rough and pitted (Figure 19b). In the case of oil spillage, the surface is soft and can be penetrated with a coin.
- H Aggregate or binder has been worn away considerably. The surface texture is very rough and severely pitted. The pitted areas are < 10 mm (4 in.) in diameter and <13 mm (1/2 in.) deep (Figure 19c); pitted areas larger than this are counted as potholes. In the case of oil spillage, the asphalt binder has lost its binding effect and the aggregate has become loose.

How to Measure

Weathering and raveling are measured in square meters (feet) of surface area
